# St Cyrus Nursery - Term 4 2023/24

I would like to start this newsletter by sharing the nursery's most recent care inspection as this highlights the hard work all our practitioners have put in to make your child's experience the best it can be. This can be found on the care inspectorate link

(https://www.careinspectorate.com/index.php/site-search) and type in St Cyrus for our most recent inspection.

This consisted of gradings of 5's (Very Good) in all areas. Some of the lovely comments in the report are:

'Children were happy, having fun and fully engaged in their play.'

'Play experiences provided opportunities for children to develop their skills in language, literacy and numeracy.'

'A parent shared, "The staff are welcoming, they meet the needs of my child, adapt to my child's needs".'

We would like to thank all our families for your continued support and helping us make St Cyrus Nursery 'Reach for the Stars'. inspectorate

On another note: we would like to congratulate Donna who is going on a secondment. She has moved to a promoted post in another setting in Aberdeenshire.

## Literacy

 $\stackrel{\wedge}{\Rightarrow}$ ☆ Our learning over the next few weeks, as requested by parents and children, will be about space. We will be finding out information about the solar system and asking the children what in particular they would like to learn.

How to support at home: If you have any books that would be useful for us to find information, please feel free to share these with us.

# Numeracy and Mathematics

We are working on developing our block play area to help promote curiosity, inquiry and creativity. You may have noticed that we have moved around furniture to create a space where children can use the blocks. We have introduced a chalk board at this area to develop mark making as part of their creations.

#### Health and Wellbeing-

As the better weather approaches, we will be learning about how to stay safe in the sun. We have already sent home permission letters for sun cream in nursery (if these could please be returned). We will be learning about why we wear sun hats, put on sun cream and practitioners will be monitoring the HV levels.

How to support at home: Attached to this newsletter is a leaflet with more information to learn about how to stay safe in the sun and how to detect early signs of skin cancer.
